

1. Move to main domain cspu.uz
2. Search feature by whole site
3. Improve security, put captcha, After 3 times wrong password entered block login to account, ... and tell me what else we can do
4. AI evaluation optimization. Instead of evaluation by screenshot implement method by parsing content. Evaluate each pages Uz, Ru, En , currently doing only uz.
5. Emails collection response (from shuhrat)
6. Menu creator: its not allowing put the link for each language page . its putting single link and its always going to uzbek page , even from russian and english page.
7. Events
  - 1 About event page add selection option "Responsible department". Its department of faculty. Who has access to the department , can only see events belong to them or created by them, so everyone will see own event.
  2. Make option directly create and add Speaker and Partners on event page. No selection from global.
  3. Some layout issues.
8. Dashboard <https://gemini.google.com/share/8dc785d7c747>
9. Appeals: Add manage all permission
  1. On top bar add appeal icon and show new appeals with numbers as notification bell icon
  2. Add delete option for superadmin
  3. Make status changabe by order: Accepted, then only possible to change "In review", then "Replied" then Closed. Only aftre really rated then only possible to change status to "Rated"
  4. Dashboard welcome banner show numbers of open appeals
  5. in case incoming appeal send email also telegram message to the RECIPIENT.
  6. Appeal detail page UI: <https://gemini.google.com/share/c89746789018>
10. Centers categories. <https://gemini.google.com/share/5cc346bb3491>  
There will be more type of departments . need to make CRUD types of Centers. Created type will appear on menu and there will be possible to create centers. Each type will have a link and I can place them in menu.
11. Application management: need to optimize page of incoming applications. Need to put option to replay them (email and telegram) as we did for student application page.  
<https://gemini.google.com/share/b01ab01995a4>
12. University ranking card display on footer <https://gemini.google.com/share/b3136116fba6>  
*Write script to check ranking platform's chdpu web page and update info once a month.*
13. **Staff card ui improvement** , grid implement : <https://gemini.google.com/share/1eb375fdb0af>
14. Map page  
Here is how it should be: <https://gemini.google.com/share/5d1f4c5f1835>  
Super admin should be able to add/remove points
15. HR Staffs department <https://gemini.google.com/share/fa077f0e7d99>  
Staffs list with all data  
Contest for position with AI conclusion : <https://gemini.google.com/share/52c399f94e56>  
Frontend: <https://gemini.google.com/share/3cb1dd9b20c0>
16. Rankings setting <https://gemini.google.com/share/c476af175578>
17. Staff profile <https://gemini.google.com/share/319a32c35793>  
Take some data from staff profile to ranking , such as diplomas and etc ...
18. Notification system. <https://gemini.google.com/share/7b9152bf4358>  
Super admin sends notification to all or selected staffs  
Super admin notifications  
System notifications: incoming appeals, reply to my appeals, expiring ID card,
19. Scientific councils  
Make option to add counsil members and seminar members  
Council members: <https://gemini.google.com/share/5869c89e79b8>

Add members to council and seminar pages: <https://gemini.google.com/share/bfe7295771ae>

Applicants and process : <https://gemini.google.com/share/db538f07445c>

Applicant process frontend: <https://gemini.google.com/share/dd63e885a9c6>

Translation: <https://gemini.google.com/share/f5f67b0cd65e998901234567> 1234

Frontend where will be displayed the list: <https://gemini.google.com/share/c701d573e1d4>

20. [Lesson evaluation](#) (will be written soon)

21. Admin side and front side All pages (department pages and user pages) loading slow because of much kontent , its trying tol show all at once. need to make it loading only active pages and tabs. [Livewire](#)
